Technical support and product updates are free for a minimum of one year with all purchases. Technical support is to a single point of contact for developer and multi-user licenses.

dtSearch Desktop with Spider

_____ single seat @ \$199

TOTALS

dtSearch Network with Spider

- _____ 5 to 24 seats @ \$160 each
- _____ 25 to 99 seats @ \$140 each
- _____ 100 to 199 seats @ \$120 each
- _____ 200 to 499 seats @ \$100 each
- _____ 500 to 999 seats @ \$80 each
- _____ 1,000 to 1,999 seats @ \$70 each
- _____ 2,000 or more seats @ \$60 each

- ◆ Pricing is non-concurrent. A 5-seat purchase means a license for up to 5 computers and up to 5 individual users. Pricing also works as volume licensing. For example, a 100-seat purchase could be for 100 laptops and up to 100 individual users. A single individual using multiple computers counts as multiple seats.

dtSearch Publish

_____ "Publish 250" @ \$2,500

- ◆ Allows for distribution of up to 250 identical content CDs, DVDs and other portable media, including "search only" functionality (i.e. without giving end-users indexing ability). The media may run in an individual usage capacity only, and not from a shared-access server such as IIS.

_____ **Special Web "Combo":** "Publish 250" + single-server dtSearch Web with Spider @ \$2,995

- ◆ Royalty-free options also available. Please contact dtSearch Corp. for details.

dtSearch Web with Spider

_____ single-server @ \$999 each

- ◆ **Technical support covers the dtSearch Web with Spider application only. Technical support does not cover C++, Java, .NET, COM and other developer APIs.**
- ◆ For multi-server licensing, please see dtSearch Engine, below.
- ◆ Load balancing, backup, testing, and development servers in use after the 30-day evaluation period all count as additional servers for licensing purposes.

dtSearch Engine for Win & .NET

_____ 3-server pack @ \$2,500

- ◆ Also includes dtSearch Web with Spider application as an IIS server-based deployment option.
- ◆ Load balancing, backup, testing, and development servers in use after the 30-day evaluation period all count as additional servers for licensing purposes.
- ◆ Royalty-free (from \$9,995) and royalty (from \$2,500) options also available. Please contact dtSearch Corp. for details.

dtSearch Engine for Linux

_____ 3-server pack @ \$2,500

- ◆ Package requires C++ or Java programming.
- ◆ Load balancing, backup, testing, and development servers in use after the 30-day evaluation period all count as additional servers for licensing purposes.
- ◆ Royalty-free (from \$9,995) and royalty (from \$2,500) options also available. Please contact dtSearch Corp. for details.

Please add 6% sales tax if in Maryland, or 7.6% sales tax if in Missouri.
