dtSearch Desktop with Spider – single user license

Requires Windows

Single user license: a single individual may use the software on up to two computers, so long as the software will be used on both computers exclusively by that individual. In a terminal server environment, each terminal server user counts as a separate user. For successive installs on multiple different machines for forensics, e-discovery and similar investigative usage, please see dtSearch Desktop “investigative” license.

single user @ \$199 _____

dtSearch Desktop with Spider – annual single individual user “investigative” license

Requires Windows

Annual single individual user “investigative” license: this is an annual license covering use for one year by a single individual for forensics, e-discovery and similar investigative usage. A single individual may install, uninstall and reinstall the software successively on multiple different machines, provided that the software must be fully uninstalled on the previous machine prior to installation on another, so the software is only installed on one machine at any given time. In a terminal server environment, usage for each terminal server counts as a separate installation. This license also includes an additional dtSearch Desktop with Spider single-user license for personal usage. All other installations for either indexing or searching require additional licenses.

annual single user “investigative” @ \$999 covering one year _____

dtSearch Network with Spider – multi-user license

Requires Windows

Pricing is non-concurrent: a 100 user license covers up to 100 machines in a single organization with the software running either in a shared network environment or separately for each end-user (e.g. for laptops). In a terminal server environment, each terminal server seat counts as a separate user. dtSearch Network licenses also include use on a single additional machine for indexing and/or for shared network index access. All other installations for either indexing or searching — including temporary forensics and e-discovery installations — require additional licenses.

number of seats:	_____
5 to 24 @ \$160 per seat	_____
25 to 99 @ \$140 per seat	_____
100 to 199 @ \$120 per seat	_____
200 to 499 @ \$100 per seat	_____
500 to 999 @ \$80 per seat	_____
1,000 to 1,999 @ \$70 per seat	_____
2,000 to 4,999 @ \$60 per seat	_____
5,000 to 9,999 @ \$55 per seat	_____
10,000 to 19,999 @ \$52 per seat	_____
20,000 or more @ \$50 per seat	_____

dtSearch Web with Spider – single server license

Requires IIS. Technical support covers dtSearch Web with Spider only. Technical support does not cover C++, Java, COM, .NET and other APIs.

Server definition: each physical machine, including all load balancing, backup, testing and development machines, counts as a “server” for licensing. For multi-server licensing, please see the dtSearch Engine.

dtSearch Engine for Windows

Includes C++, Java and .NET developer APIs; also has dtSearch Web with Spider as an IIS deployment option.

Server definition: license covers usage in one single organization, with technical support to a single point of contact. Each physical machine, including all load balancing, backup, testing and development machines, counts as a "server" for licensing. In a cloud-based environment like Microsoft Azure, each instance counts as a "server" for licensing.

additional servers beyond those above @ \$833 each _____

Contact dtSearch for royalty-free and other options.

dtSearch Engine for Other Platforms

Requires programming

Contact dtSearch for license agreement.

dtSearch Publish 250 license

Requires Windows

"Publish 250": covers use of dtSearch Publish to create up to 250 "search-only" (without end-user indexing) portable media of identical content, distributable to up to 250 total users. All portable media copies must contain the same identical content under this option. The "search-only" portable media may run in an individual-usage capacity only, and not from a shared-access server such as IIS. This license includes a single user license of dtSearch Desktop for index building; additional dtSearch Desktop/Network are subject to separate licensing. See dtSearch License Agreement for additional license details.

"Publish 250" @ \$2,500 _____

Special Web "Combo": "Publish 250" plus one server dtSearch Web with Spider @ \$2,995 _____

dtSearch Publish "Annual Service Bureau" license

Requires Windows

"Annual Service Bureau": is an annual license covering one year of "search only" (without end-user indexing) portable media publishing from one location, with portable media content as set forth below. (A) The content must fall into one of the following categories: (i) confidential e-discovery or forensically retrieved data; (ii) confidential business transaction documents; (iii) data that Licensee has OCR'ed as a "service bureau" for Licensee's clients; (iv) subject to written approval by sales@dtsearch.com, other similarly narrow topics (oil rig specifications, cardiovascular information, airline regulations, etc.). (B) Portable media mastering must occur at a single physical location. (C) The "search-only" portable media may run in an individual-usage capacity only, and not from a shared-access server. (D) An annual license renewal is required to cover usage beyond the initial year period. (E) This license includes a single user license of dtSearch Desktop for index building; additional dtSearch Desktop/Network are subject to separate licensing.

"Annual Service Bureau" @ \$3,500 covering one year _____
